

Business Assistance Program Background and Terms

Background

The City Creeks Division has created a small grant program for businesses within the City of Santa Barbara to purchase products that will enable them to meet the water quality goals and requirements of the *Clean Creeks Certified Business Program*. The *Creeks Business Assistance Program* is a component of the Certified Business Program. The Business Assistance Program provides businesses with specific products that they need to become a certified clean creeks business. The overall goal is to help businesses comply with changing water quality regulations, and to protect and improve water quality. Local businesses that become certified are publicly recognized in newspapers and magazines for adopting water quality protection practices. This is a pilot program subject to review and revision.

Eligibility

- Business must be located within the City of Santa Barbara
- Business must have a valid business license from the City of Santa Barbara
- Business owner or manager must fill out the Business Assistance Program application form
- Business must already be certified or become certified (after the purchase and installation of the product) as a City Clean Creeks Certified Business
- Business must be active (in business) for a minimum of one year

Terms

- Product(s) must improve or protect water quality
- Product(s) must be approved by the City Creeks Division
- Product(s) must facilitate/enable the business to become certified as a Clean Creeks Certified Business or improve upon the certified business' operations
- Product(s) cannot exceed \$1,000.00 per business
- If the application is approved, the product(s) must be properly installed and used
- Product(s) must be installed at the address identified on the application (except for mobile businesses)
- Completed applications will be processed in the order received and this offer is subject to available funding
- The Creeks Division reserves the right to inspect the installation and/or implementation of the purchased product(s) for up to two years
- The City is not liable for any subsequent product failures or damages that may be caused by installing or using the product(s)
